

A guide for Language learners at home.

I hope the following resources and information will help you continue your love of learning languages at home and help keep you entertained over the coming weeks. The key to learning a language is to do a little bit every day, download an app (Duolingo is good and you can compete against friends) play games, read a book/magazine, listen to the radio, watch a film (even if you have the English subtitles on!) or a youtube video, write to a friend abroad or video call friends and family in other countries.

There are lots of investigative tasks in various languages here: <https://www.euroclub-schools.org/>

Year 4

We loosely follow a similar scheme of work shown here at http://www.rachelhawkes.com/Resources/Y4_French/Yr4French.php

We have begun to learn nouns for parts of the body and face. Next, we were going to design a monster and write a description of its body e.g. *Il a un grand nez vert.* (It has a large green nose).

Plenty of practise on counting and simple greetings is always beneficial too.

More information and links may be sent on the LKS2 Purple Mash blog.

If you are looking for project based work, why not do some research into Paques (Easter in France), le Carnaval (Mardi Gras) or Bastille Day (14th July)

Year 3

We loosely follow a similar scheme of work shown here at http://www.rachelhawkes.com/Resources/Y3_French/Yr3French.php

This term we have been learning some animal words, and begun to learn how to put the adjectives after the noun – especially colour words. E.g. *Un chien noir.* (A black dog).

We have read the French story: Ours Brun which the children would benefit from reading again.

Plenty of practise on counting and simple greetings is always beneficial too.

Look out for links on the LKS2 Purple Mash Blog.

If you are looking for project based work, why not do some research into Paques (Easter in France), le Carnaval (Mardi Gras) or Bastille Day (14th July)
