

St Giles' C. E. Primary School

Our vision for Physical Education

<p>RESPONSIBILITY</p>	<p>Physical Education at St Giles' Primary School provides our pupils with numerous opportunities for children to develop our core values of responsibility, resilience and respect.</p> <p>Enjoyment and teamwork play an integral part in our physical education lessons. Within all lessons, children will be individually challenged, promoting a self-awareness that aims to improve their performance. This resilience will remain with them long after they leave school and become a life skill that leads to success.</p>
<p>RESILIENCE</p>	<p>Our curriculum is inclusive and active, ensuring pupils of all abilities can access the lessons. Children learn that respect plays an important part of team games and individual achievement. Teamwork skills will be developed to enable children to demonstrate responsibility throughout the school community and beyond. We believe it is vital that children enjoy physical education and develop a love that will continue once they leave us.</p> <p>Inter house competitions provide every child with the opportunity and responsibility to compete against their peers. We also use specialist coaching to prepare for inter school competitions and provide the children with a wide range of after school clubs. We aim to use the School Games calendar in order to plan our physical education lessons and this also gives our children a greater chance of success in the wider community. During these competitions our pupils will demonstrate how our core values have been embedded – respecting their opponents; acting responsibly together in teams; and showing resilience with key physical skills in order to give their best.</p>
<p>RESPECT</p>
